

## **February 2021 Election Process**

With the ongoing challenges around holding physical meetings, and government guidance that elections and canvassing cannot restart until at least May, we have taken the difficult decision to postpone February's election for a representative of Special Drainage District of Royston and carry a vacancy until the next available opportunity.

However, the Stint holder elections are able to go ahead, and official notices are published in this week's Royston Crow and have been affixed to the Church and Chapel doors in Therfield. Those notices are also available to view on this website.

The Conservators remain committed to openness and transparency and have announced an online meeting for residents and visitors on Thursday 11<sup>th</sup> March at 19.30.

More information on this and the upcoming elections can be found on this website <http://www.therfieldheath.org.uk/>
