HEATH  
& GREENS

# WARNING RAT POISON IN USE

Rat Bait Boxes are being used around this car park to deal with a rat infestation notified under Pest Act 1954. The baited rat boxes are accessible only to the rats. Poison used is **Bromadiolone**.

Please monitor your children and dog(s) carefully **in this marked area** (the car park and surrounding land) to ensure they do not come into contact with rats. A daily site check/clear up has been established.

The main carpark – and other heath common land – are not affected.

All enquires to [clerk@therfieldheath.org.uk](mailto:clerk@therfieldheath.org.uk) or phone 07449 705 345 – more information on Facebook (The Conservators of Therfield Heath & Greens) and Twitter @TherfieldHeath
